The Supporter Upgrade for [Deep Rock Galactic](#) is expensive, but if you really like the game and want to show your appreciation for the indie developers making it, it's a good purchase. I think they deserve it, at least, for continuously making high quality expansions and updates to the game. The gold armors look nice (if a bit flashy) and the gold weapons look pretty cool; this is one of the better golden gun DLCs I've seen. They even added new stuff - to a *supporter DLC* - to give it a bit more value...such as the aforementioned gold weapons, *Rock and stone, brothers.. Buy it. For Karl. This one's for Karl!. Karl would be proud.. At this point I am looking to throw money at these awesome devs.*

*Rock and Stone!*
